# Cooling Grey

After a day romping on the beach in our hip sunglasses, shorts & strappy sandals, don't we all desire to return to a haven that is both cool and soothing?

*Like a refreshing pop-up shower,*  
grey is a cooling accent for a casual summer look.

Luce quilt is cool & lightweight, with a casual stripe perfect for any summer ensemble.

Brayden duvet is a classic beachcomber ticking stripe, with exposed coconut shell buttons.

The Davis quilt is hefty in drama, and light in weight.

## SUN-SOAKED COLOR

Some rules are made to be broken.

### *Ivory & White*

No longer a no-no. We say:

*Ah-ha!*

### *Micah White Coverlet*

Queen & King Sizes 30% Off  
(while supplies last)

### *Vintage Inspiration*

Achieve this look by *layering details to the max* with lace, ruffles, delicate gathers and chunky cotton cables. Alternate white and ivory throughout so the combination looks deliberate, not accidental. Finally, add a touch of sun-soaked color for a soothing pallet, perfect for summer solstice.

## Isn't it lovely, in Lavender?

Inspired by the more relaxed European lifestyle Kent brings home the casual elegance the continent is known for.

The eyelash edge bedspread reverses to natural, so that Kent offers the newness of lavender grounded with the always appropriate linen.

*Chambray* is a great way to add pops of *summer-y hues.*

All Kent bedspread colors reverse to natural linen.

## How to Select a Summer Quilt

### Face:

The decorative outside layer. Natural materials breathe best, and prevent trapping body heat.

### Batting:

The lining between the two face layers, and is the biggest factor in the warmth of the quilt. Stick to natural batting that will breathe with you.
